Scotsburn - Clarendon Community

Upper Williamsons Creek  
LANDCARE GROUP

Upper Williamsons Creek  
LANDCARE GROUP

"We are a community group that helps landholders manage, protect and enhance the natural resources within our region".

## Our Group

The Upper Williamsons Creek Group's area incorporates the Mount Buninyong, Lal Lal, Scotsburn, Mount Doran and Durham Lead districts.

We encourage landowners and community members to undertake environmental projects that will protect and enhance the natural resources within our region. With the help and guidance of our group, landholders can learn how to implement best land management practices and techniques on their properties.

**We facilitate a wide range of programs that cater for different landholders' interests, such as:**

- Soil improvement
- Weed and feral animal control
- Sustainable agriculture
- Revegetation for biodiversity
- Workshops, field days & short courses
- Pasture improvement

## Volunteering

Anyone can be involved in our group. There are a wide range of volunteering opportunities available for anyone who is interested in lending a hand, such as community tree planting days, water watch monitoring, weed control, and maintenance activities on our sites.
